

Aman Pandey

Aspiring AI/ML Engineer | Computer Science Engineering Student

+91-7233990093 | amanpandey20506@gmail.com | [LinkedIn](#) | [GitHub](#)

Profile Summary

Aspiring AI/ML Engineer with a solid foundation in Python, Machine Learning, and Deep Learning architectures (Transformers, CNNs, RNNs). Hands-on experience developing Generative AI applications utilizing LLMs, RAG pipelines, and OpenAI APIs, paired with Flask for backend integration. Proficient in end-to-end model evaluation, Git workflows, and containerization using Docker and Kubernetes to build scalable, production-ready AI solutions.

Education

SMS Lucknow

Bachelor of Technology in Computer Science and Engineering

2023 – 2027

Lucknow, Uttar Pradesh

S.S.V Inter College

Intermediate (XIIth), Science

2021 – 2023

Ayodhya, Uttar Pradesh

Skills

Languages & Query: Python, SQL

Machine & Deep Learning: Supervised/Unsupervised Learning, CNN, RNN, Transformers, GANs, TensorFlow, PyTorch

Generative AI & NLP: GenAI, LLMs, RAG, NLP, OpenAI APIs, ChromaDB, LangChain

Data Engineering & Analysis: Data Cleaning, Feature Engineering, Preprocessing, Data Visualization

DevOps & Backend: Flask, Docker, Kubernetes, Git & GitHub, Streamlit

Projects

DataLens - AI Data Analyst | *React, FastAPI, DuckDB, Pandas, Scikit-Learn, SQLite*

[GitHub](#) | [Live Link](#)

- Built an AI-powered analytics platform that transforms raw CSV/XLSX datasets into actionable insights through automated data cleaning, statistical analysis, and interactive visualizations.
- Developed a scalable analytics engine using DuckDB, Pandas, SciPy, and Scikit-Learn, supporting SQL querying, correlation analysis, and Isolation Forest-based anomaly detection.
- Implemented Natural Language-to-SQL querying and executive report generation, enabling users to explore datasets conversationally and export professional PDF/Excel business reports.

Echo Notes - AI Meeting Assistant | *yt-dlp, FFmpeg, Whisper, ChromaDB, Mistral AI, Streamlit*

[GitHub](#) | [Live Link](#)

- Built an end-to-end meeting intelligence platform converting YouTube audio into structured transcripts, automated summaries, and an interactive Q&A system.
- Implemented an automated audio ingestion pipeline using yt-dlp and FFmpeg, integrating Sarvam AI and Whisper for high-accuracy multilingual transcription.
- Developed a RAG pipeline using Hugging Face Sentence Transformers and ChromaDB to perform semantic vector search across long-form meeting transcripts.
- Integrated Mistral AI to extract key action items and deployed a modular Streamlit web interface for real-time conversational querying.

MindPulse - AI Wellness Predictor | *Scikit-Learn, FastAPI, Pandas, JavaScript*

[GitHub](#) | [Live Link](#)

- Built an end-to-end machine learning application that predicts student mental wellness scores from academic, behavioral, and lifestyle factors using a Random Forest-based predictive model.
- Engineered a production-ready inference pipeline with Scikit-Learn, FastAPI, and Pydantic, integrating automated preprocessing, feature transformation, and RESTful model serving.
- Developed and deployed an interactive web platform with responsive visualizations, real-time prediction capabilities, and cloud-hosted API integration to deliver personalized wellness assessments.

Professional Experience

Machine Learning & Generative AI Intern

June 2026 – July 2026

Amigo India

Remote

- Developed an internal prototype Retrieval-Augmented Generation (RAG) pipeline utilizing LangChain, LangGraph, and ChromaDB vector search to optimize context retrieval for production workflows.
- Designed and evaluated prompt engineering strategies across iterative LLM experiments in Jupyter Notebook, improving response reliability and substantially reducing experimentation time.

Awards & Certifications

Artificial Intelligence and Machine Learning | *Issued by Infosys Springboard*

Certificate

- Completed AI & ML certification covering supervised learning, deep learning, and applied workflows.

Basic of Data Analytics | *Issued by Physics Wallah & Microsoft*

Certificate

- Completed intensive 3-day bootcamp covering data analytics fundamentals, SQL, and visualization techniques.

Winner – Amigo India Hackathon 2026

Certificate

- Secured 1st Prize at Amigo India Hackathon 2026 by developing an innovative AI-powered solution.

Leadership & Campus Experience

Treasurer - Abhivyakti Club

June 2026 – Present

Sms Lucknow

- Oversaw financial operations, budget allocation, and expense management for institute-level events and club activities.
